March 31, 2025

To the Board of Red Deer Regional Health Foundation:

Opinion

We have audited the financial statements of Red Deer Regional Health Foundation (the "Foundation"), which comprise the statement of financial position as at March 31, 2025, and the statements of operations, changes in fund balances, cash flows and the related schedules for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2025, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Foundation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For the year ended March 31, 2025

1. Incorporation and nature of the organization

Red Deer Regional Health Foundation (the "Foundation") was established April 1, 1994 under authority of the Regional Health Authorities Act and the Regional Health Authorities Foundations Regulation A.R. 16/95. The Foundations is exempt from income taxes and is a registered charity under the Income Tax Act ("the Act").

The Foundation is an independent fundraising organization that seeks to provide funds for the enhancement of programs and equipment for hospitals and care facilities in the City of Red Deer and the surrounding area. The ability of the Foundation to carry on its purposes is dependent on the continuing support of donors, contributions and other stakeholders.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations set out in Part III of the CPA Canada Handbook - Accounting, as issued by the Accounting Standards Board in Canada and include the following significant accounting policies:

Fund accounting

The Foundation follows the restricted fund method of accounting for contributions, activities of the foundation are segregated into the following funds:

The General Fund reports the Foundation's general administration activities and consists of the Foundation's unrestricted resources.

The Endowment Fund reports the Foundation's funds specifically designated by either donors or internally restricted by the board so that the principal is held permanently by the Foundation.

The Restricted Fund reports the Foundation's special projects and consists of externally restricted funds. These funds have been restricted by certain regulations and agreements under which fundraising occurs and other internally restricted funds for which the Foundation has raised funds for a specific purpose to which the contributor was aware.

Measurement uncertainty (use of estimates)

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Accrued liabilities and allocation of administrative expenses require use of estimates. The Foundation allocates certain of its general support expenses by identifying the appropriate basis of allocating each component expense, and applies that basis consistently each year.

By their nature, these judgments are subject to measurement uncertainty, and the effect on the financial statements of changes in such estimates and assumptions in future years could be material. These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenues over expenses in the years in which they become known.

Cash and cash equivalents

Cash and cash equivalents include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in cash and disclosed in Note 3.

Marketable securities

Marketable securities with prices quoted in an active market are measured at fair value while those that are not quoted in an active market are measured at cost less impairment.

Accrued interest on the GIC's is added to the cost base.

Pledges receivable

Pledges receivable are recognized as an asset when the amounts to be received can be reasonably estimated and ultimate collection is reasonably assured. There is \$1,250,000 (2024 - \$0) in pledges receivable at year-end.

For the year ended March 31, 2025

2. Significant accounting policies (Continued from previous page)

Inventory

Inventories held for consumption are recognized at the lower of cost and current replacement cost. Cost is determined by the first in, first out method.

Revenue recognition

The Foundation uses the restricted fund method of accounting for contributions (administrative funding, donations, fundraising, grant revenue, etc.). Contributions are recognized as revenue of the appropriate fund when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Restricted contributions are recognized as revenue of the General Fund when there is not an appropriate restricted fund and all conditions have been complied with.

Unrestricted contributions are recognized as revenue of the General Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Endowment contributions are recognized as revenue in the Endowment Fund.

Investment income is recognized when earned as revenue of the appropriate fund in which the investment assets are recorded. Unrestricted investment income earned on Endowment Fund resources is recognized as investment revenue of the General Fund. Restricted investment income earned on Endowment Fund resources is recognized as investment revenue of the appropriate Restricted Fund.

Revenue from lottery tickets for which results are determined based on a draw and the Foundation can definitively determine its return, is recognized when the related draw occurs.

Government assistance is recognized when there is reasonable assurance that the Foundation has complied and will continue to comply with all conditions of the assistance.

Donations from insurance proceeds are recognized when the amount is measurable and collection is reasonably assured.

Pledges are recognized as revenue when the amount to be received can be reasonably estimated and ultimate collection is reasonably assured.

Due to (from) other funds

Amounts due between certain funds are non-interest bearing and have no fixed terms of repayment. Such amounts arise out of administrative practice and do not change the underlying fund restrictions.

Contributed materials and services

Contributions of materials are recognized both as contributions and expenses in the statement of operations when a fair value can be reasonably estimated and when the materials are used in the normal course of the Foundation's operations and would otherwise have been purchased.

The Foundation benefits from contributed services in the form of volunteer time. Due to the difficulty of determining their fair value, contributed services are not recognized in the financial statements.

Financial instruments

The Foundation recognizes financial instruments when the Foundation becomes party to the contractual provisions of the financial instrument.

Arm's length financial instruments

Financial instruments originated/acquired or issued/assumed in an arm's length transaction ("arm's length financial instruments") are initially recorded at their fair value.

At initial recognition, the Foundation may irrevocably elect to subsequently measure any arm's length financial instrument at fair value. The Foundation has not made such an election during the year.

For the year ended March 31, 2025

2. Significant accounting policies (Continued from previous page)

Financial instruments (Continued from previous page)

The Foundation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost less impairment. With the exception of financial liabilities indexed to a measure of the Foundation's performance or value of its equity and those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in excess of revenues over expenses. Conversely, transaction costs and financing fees are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

Related party financial instruments

The Foundation initially measures the following financial instruments originated/acquired or issued/assumed in a related party transaction ("related party financial instruments") at fair value:

- Investments in equity instruments quoted in an active market
- Debt instruments quoted in an active market
- Debt instruments when the inputs significant to the determination of its fair value are observable (directly or indirectly)
- Derivative contracts.

All other related party financial instruments are measured at cost on initial recognition. When the financial instrument has repayment terms, cost is determined using the undiscounted cash flows, excluding interest, dividend, variable and contingent payments, less any impairment losses previously recognized by the transferor. When the financial instrument does not have repayment terms, but the consideration transferred has repayment terms, cost is determined based on the repayment terms of the consideration transferred. When the financial instrument and the consideration transferred both do not have repayment terms, the cost is equal to the carrying or exchange amount of the consideration transferred or received.

At initial recognition, the Foundation may elect to subsequently measure related party debt instruments that are quoted in active market, or that have observable inputs significant to the determination of fair value, at fair value.

The Foundation has not made such an election during the year, thus all such related party debt instruments are subsequently measured at amortized cost.

The Foundation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Financial instruments that were initially measured at cost and derivatives that are linked to, and must be settled by, delivery of unquoted equity instruments of another entity, are subsequently measured using the cost method less any reduction for impairment.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of related party financial instruments are immediately recognized in excess of revenues over expenses.

Financial asset impairment

The Foundation assesses impairment of all its financial assets measured at cost or amortized cost. The Foundation groups assets for impairment testing when available information is not sufficient to permit identification of each individually impaired financial asset in the group. Management considers whether there has been a breach in contract, such as a default or delinquency in interest or principal payments in determining whether objective evidence of impairment exists. When there is an indication of impairment, the Foundation determines whether it has resulted in a significant adverse change in the expected timing or amount of future cash flows during the year.

For the year ended March 31, 2025

2. Significant accounting policies (Continued from previous page)

Financial instruments (Continued from previous page)

With the exception of related party debt instruments and related party equity instruments initially measured at cost, the Foundation reduces the carrying amount of any impaired financial assets to the highest of: the present value of cash flows expected to be generated by holding the assets; the amount that could be realized by selling the assets at the statement of financial position date; and the amount expected to be realized by exercising any rights to collateral held against those assets.

For related party debt instruments initially measured at cost, the Foundation reduces the carrying amount of the asset (or group of assets), to the highest of: the present value of cash flows expected to be generated by holding the assets; the amount that could be realized by selling the assets at the statement of financial position date; and the amount expected to be realized by exercising any rights to collateral held against those assets.

For related party equity instruments initially measured at cost, the Foundation reduces the carrying amount of the asset (or group of assets), to the amount that could be realized by selling the asset(s) at the statement of financial position date.

Any impairment, which is not considered temporary, is included in current year excess of revenues over expenses.

The Foundation reverses impairment losses on financial assets when there is a decrease in impairment and the decrease can be objectively related to an event occurring after the impairment loss was recognized. The amount of the reversal is recognized in excess of revenues over expenses in the year the reversal occurs.

3. Cash

Included in cash is \$3,771,747 (2024 - \$3,872,202) of restricted funds. The proceeds are to be used for specific purposes as disclosed in Note 9, and for the deferred hospital lottery ticket sales.

Cash recorded in the restricted fund consists primarily of funds received from fundraising events and casinos held under license with the Alberta Gaming and Liquor Commission (the "AGLC). Proceeds from these fundraising events are restricted to expenses as approved by the AGLC. These funds earn interest at current bank rates.

4. Accounts receivable

		2025	2024
	Hospital Lottery ticket sales	177,952	174,905
	GST	39,810	55,471
	Capital campaign pledge	1,250,000

	Mutual Funds	14,077,726	10,458,914
	Wataan ando	,,.	, ,

For the year ended March 31, 2025

5. Marketable securities (Continued from previous page)

Included in marketable securities is \$1,631,643 (2024 - \$5,938,597) of GIC's. These investments are comprised of 2 1-year GIC's with interest rates varying from 4.47% to 4.96% (2024 - 4.61% to 5.62%), maturing in fiscal 2026.

The Foundation's investments are professionally managed in accordance with the Foundation's investment policies with the primary emphasis on security and liquidity of capital and a secondary emphasis on yield. Credit, foreign currency, interest rate and market risks are managed by the Foundation's investment managers whose performance is reviewed regularly.

Marketable securities of \$12,099,506 (2024 - \$12,953,801) are restricted investments related to the fund project balances in Note 9 and \$3,609,863 (2024 - \$3,443,711) are restricted to endowments in Note 10.

6. Inventory

Inventory of \$11,259 (2024 - \$9,224) consists mainly of supplies and prizes purchased for the Festival of Trees.

7. Accounts payable and accruals

The Foundation has a credit card with ATB with a credit limit of \$20,000 (2024 - \$20,000) of which \$6,089 (2024 - \$13,236) has been drawn and included in accounts payable and accruals as at March 31, 2025. Interest on the credit card is a fixed rate of 19.90% (2024 - 19.90%).

8. Restricted fund project balances

Restricted project balances represent specific commitments and the unallocated net proceeds of various fundraising events. As part of its strategic fundraising efforts, the Foundation works with its stakeholders to determine projects requiring funds. The allocation to various projects are subject to change.

A large majority of these funds are committed to projects with Alberta Health Services.

	2025	2024
Restricted funds:		
Addictions and mental health	722,564	729,331

Unrealized gain	872,256	644,019
Total	14,516,064	13,081,830

For the year ended March 31, 2025

9. Endowment fund

The Endowment Fund consists of Board endowed resources and externally restricted contributions received by the Foundation where the endowment principal is required to be left intact. The investment income generated from assets held for endowment purposes must be used in accordance with the various specific endowment agreements as established by the donors or the Board. In some cases, the investment income is restricted for a specific purpose and is recorded as revenue of the appropriate Restricted Fund. Investment income on the endowments that are not restricted for a specific purpose are recorded as revenue in the General Fund.

10. Contributions to Alberta Health Services and other organizations

The Foundation works closely with Alberta Health Services ("AHS") and other nearby Central Alberta hospital foundations and trusts to the extent that these organizations partner in the strategic direction of health care in the Red Deer region.

The Foundation has transactions in the ordinary course of operations with AHS, other foundations and health trusts as follows:

- (a) Alberta Health Services The Foundation contributed \$4,802,907 (2024 \$3,445,047) to AHS for the purchase of equipment and funding of programs. The Foundation received \$155,000 (2024 \$155,000) and \$0 (2024 \$20,000) in funding from Alberta Health Services for administration expenses and grants, respectively.
- (b) Other Foundations and Health Trusts The Foundation transferred restricted funds in the amount of \$0 (2024 \$8,560) to Foundations and Health Trusts of small communities throughout Central Alberta. These funds represent unspent donations received that are designated to be spent in a number of nearby communities.

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the parties.

11. Net revenue by event

One of the Foundation's main fundraising events is the Hospital Lottery which begins selling tickets in March, with the final draw in July.

The fundraising special projects net revenue on Schedule 1 reports the revenues and expenses on a fiscal basis.

The net fundraising revenue as reported on a calendar event basis, for only the 2024 event is \$542,124 (2023 event - \$398,285) from the Hospital Lottery.

For the year ended March 31, 2025

1,038,293

881,453

12. Investment income

13.

Investment income earned is reported as follows:

	2025	2024
Income earned on unrestricted resources Income earned on restricted resources Unrealized gains (losses) on investments	49,107 1,267,182 (188,914)	58,375 908,083 261,571

Wages and benefits	795,468	700,755

14. Financial instruments

The Foundation, as part of its operations, carries a number of financial instruments. It is management's opinion that the Foundation is not exposed to significant interest, currency, credit, liquidity or other price risks arising from these financial instruments except as otherwise disclosed.

Credit Risk

Credit risk arises from the potential for an investee to fail or counter party to default on its obligations to the Foundation. The Foundation holds cash at one bank in excess of the amount that is insured by the Canadian Deposit Insurance Corporation limits.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk. In seeking to minimize the risks from interest rate fluctuations, the Foundation manages exposure through its normal operating and financing activities. The Foundation is exposed to interest rate risk primarily through its fixed income securities. As interest rates fluctuate, the fair value of these securities will be impacted.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risk: currency rate risk, interest rate risk, and other price risks. The Foundation is mainly exposed to other price risk from the potential fluctuations in investment value as a result of changes in market prices.
